

V-Line RS

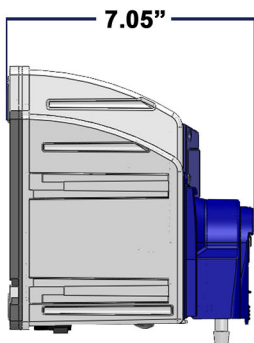

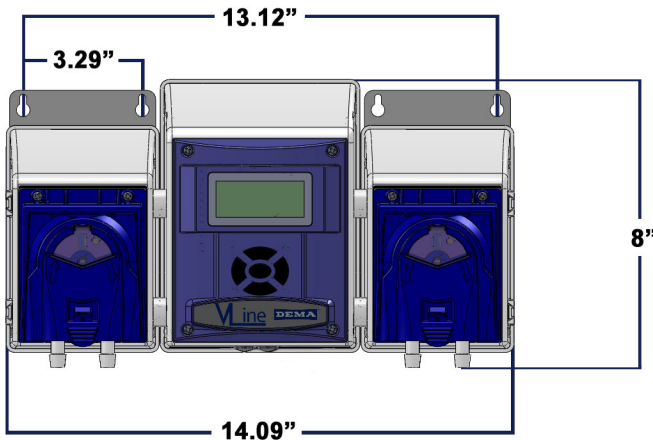

Value, Flexibility, Performance

The Ultimate 1-2 Product Multi-Formula Laundry Dispenser

V-Line RS is designed to handle residential style and other smaller machines when few products are required but multiple formula choices are needed. V-Line RS features a modular 1 or 2 pump design using DEMA's proven quick change blue pumps and the new IQ 50 board for up to 9 formulas.

- Great for car wash, dry cleaning, industrial, F&B, pool, athletic facilities and more
- Simple mount and plug 2 step installation with factory installed stainless wall bracket and power cord with plug
- Simplified setup with factory pre-programming for 1-2 pump operation and user start operation mode
- Easy user activation with remote start module or intuitive button on dispenser
- Features up to 9 formulas to handle a wide array of soil classifications and linen types
- Easily expandable to 3-6 pump for OPL applications
